

Reinforcing the Common Bond

The new LayerLock™ Technology powers the industry's widest nailing zone and the first wind warranty with no maximum wind speed limitation.¹

GAF LayerLock™ Technology was recognized as the **top home innovation of 2020** in the *Popular Science Best of What's New Awards*

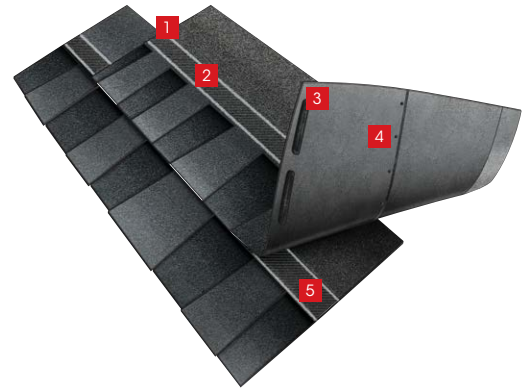

LayerLock™ Technology

Benefits:

- Timberline® Shingles with LayerLock™ Technology are engineered for the best possible installation.
- **LayerLock™ Technology** mechanically fuses the common bond between overlapping shingle layers.
- Our legendary **Dura Grip™** sealant pairs with the smooth microgranule surface of the StrikeZone™ nailing area for fast tack. Then, an asphalt-to-asphalt monolithic bond cures for durability, strength, and exceptional wind uplift performance.
- The added strength at the common bond powers the **StrikeZone™** — The industry's widest nailing area.
- **Up to 99.9% nailing accuracy** — The StrikeZone™ nailing area is so easy to hit that a roofer placed 999 out of 1,000 nails correctly in our tests.²
- **Up to 30% faster nail fastening** thanks to the industry's largest nail zone.²
- **WindProven™ Limited Wind Warranty** — When installed with the required combination of GAF Accessories, Timberline® Shingles with LayerLock™ Technology are eligible for an industry first: a wind warranty with no maximum wind speed limitation.¹

Product details:

1. Alignment guide
2. StrikeZone™ Nailing Area
3. Dura Grip™ Adhesive
4. LayerLock™ Technology
5. Smooth microgranule surface

¹ 15-year WindProven™ limited wind warranty on Timberline® Shingles with LayerLock™ Technology requires the use of GAF starter strips, roof deck protection, ridge cap shingles, and leak barrier or attic ventilation. See *GAF Roofing System Limited Warranty* for complete coverage and restrictions. Visit gaf.com/LRS for qualifying GAF products.

² Results based on study conducted by Home Innovation Research Labs, an independent research lab, comparing installation of Timberline HD® Shingles to Timberline® HDZ™ Shingles on a 16-square roof deck using standard 4-nail nailing pattern under controlled laboratory conditions. Actual results may vary.

LayerLock™ Technology
Powers the industry's widest nailing zone

Beautiful finished look
It's the same Timberline® Shingle you know and love, now even better
